**Subject:** School Closures - Board Website Postings / Information Required / Written Submission

Mario,

#### **BOARD WEBSITE POSTINGS**

I am unable to find any web postings of Minutes and/or Delegation Submissions on the Board website regarding either the September 22, 2008 nor September 27, 2008 Public Meetings. I believe this to be in direct noncompliance with Ministry Guidelines for an open and transparent process. The complete Minutes and Delegation Submissions should have been posted long before now. If they have, in fact, already been posted, please have the link sent to me, and accept my apologies.

#### **INFORMATION REQUIRED**

I require the following information for preparation of submission to Board:

1. Copy of any and all Air Quality, Water Quality and/or Environmental Reports regarding St. James and St. Dominic conducted over the past 10 years
2. Explanation of the "evidence of old buried oil tanks" at St. Dominic as stated in the attached pdf
3. Written price quotations and copy of board policy regarding the need for proposed parking lot enhancement at St. James
4. Specific grade by grade population breakdown indicating the need for placement of a portable at St. James for the 2009-2010 school year should consolidation take place at St. James, as well as, written price quotations for work to be completed
