

# QUALIFIED TUTORS

**“We come to You”**

*“Working for Qualified Tutors has been my pleasure and I have gained cherished experiences from it, which will help me towards my career in teaching. Tutoring has allowed me to witness firsthand the positive role an individual can play beyond the classroom experience. This has served to reinforce my belief that by engaging a student effectively, a teacher has the potential to be amongst a student's greatest role models.”*

*A Qualified Tutor*

She did well enough to secure a 70% average in Grade 10 math. It would NOT have been possible without her tutor's help. Kudos on a job well done.

Our tutor was definitely a key to our son's performance and I look forward to the opportunity of working with him again.

From an average of 63 when we started she reached 73 after her final exam!

I would like to thank you for your service over the past six months and let you know that I feel strongly that this experience has been so beneficial largely due to our tutor who has done a phenomenal job with him.

We said so long to our tutor last night with some measure of sadness. His quiet coaching certainly appeared to be a good fit with our son, who responded with interest, if not exuberance.

Just wanted to tell you how great our tutor is! Our daughter absolutely adores her -please let her know how pleased we are!

Our tutor is amazing. She is outgoing, always prepared and my kids love working with her.

Thank you for sending our tutor who did an excellent job conveying and teaching our son all he needed to know for physics11 and math 11. He obtained a final mark in the 80's in both subjects. We highly recommend her.

Our daughter absolutely loves her tutor and her math marks are coming up! On her last test she got 20.5 out of 24, which is unheard of. She said it was "easy."

Our daughter's marks are As and Bs this year instead of the Bs, Cs and Ds she received last year. I think the fact that we had Qualified Tutors on board right at the start of the school year is making a big difference.

Our daughter just received 97% in a recent test, thanks to her tutor and her friend (who is working with the same tutor) got 84%. Thank you Qualified Tutors!

Thank you so much for handling this! I am in Scotland on a business trip and I could not believe that you got a tutor in chemistry for last night! Even better he had a chemistry test today so the timing was absolutely perfect

Just for the record, our tutor has been wonderful to work with. We (my daughter and I appreciate the help he has provided.

Just wanted to pass along that our daughter just got back her results with respect to her two last Math tests ... 97% and 94% ...Unbelievable... we are thrilled!

Last night went very well with the tutor. Our son thought she was great. She seems like a lovely person with a no nonsense kind of way about her...just what we need around here. Once again, thanks so much for your help.

He got the maximum points (7) in Chemistry -- an overall IB score of 40 points out of 45. He has enrolled in Purdue University, Indiana, US for undergraduate studies in Engineering (Honors). Purdue is ranked 8th in the US national college rankings for Engineering. Thank you for Qualified Tutors' help over the past few years in helping to get him there.

Our daughter LOVES her tutor, as do I. We would like her back next semester.

Our daughter graduated with an 88% average, over 80% in English and will be attending Western University next year. Thanks for your assistance. Her tutor was excellent and just what she needed to make this happen!

He raised his mark in English and was more confident in his math. I'm so glad that we invested in the tutoring. I strongly believe that he wouldn't have gotten through it if he hadn't had the excellent tutoring that Qualified Tutors provided!

I just wanted to let you know how much we appreciated our tutor. He's a great guy! He was a perfect mentor both personally and scholastically for my son.

Thanks once again for providing an excellent tutor. Our son was very pleased with his final grade and he was surprised that he actually understood statistics -

Our daughter was getting high 70s in her chapter tests but in the last chapter test that she had after her first two sessions with the tutor, she got perfect.

Our son got 91% on his last test WOW!!

Our son just got a perfect score on a quiz... thank you Qualified Tutors!

P.S. My son's tutor is awesome!
