

Calculating Your Ecological Footprint

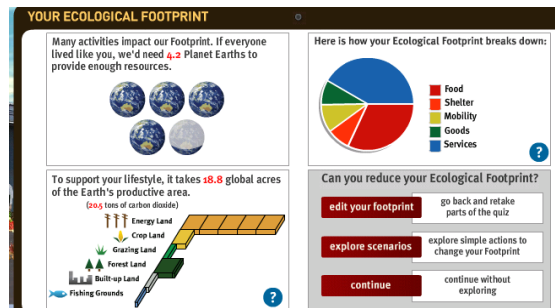

1. Using http://en.wikipedia.org/wiki/Main_Page find the meaning of Ecological Footprint.

2. Use <http://www.earthday.net/> to find your own Ecological Footprint. Follow the instructions below:

- a) Once you've gone to the Earthday web site, go to the menu bar and click on the  icon on the top middle of the web page.
- b) Click on .
- c) Then click on *Footprint Calculator* and follow the instructions.

- d) Next, select Calgary on the map and wait for the page to load.
- e) Click on the KIDS button and then the detailed version and follow the instructions
- f) Create your character by clicking on the five items (hairstyle, hair colour, skin colour, shirt colour & pants colour) to represent you. Click OK to continue.
- g) Next, use the ***Detailed Information*** questions only on the bottom.
- h) Use your mouse to slide the marker (left or right) to represent your answer.
- i) Follow through each of the ***Detailed Information*** questions only for the whole survey.
- j) At the end of the survey you will get a pop-up window that looks like the one below:

- k) Press Print Screen, then open a Word document and paste. Double click on the image and then crop the image to just have your EF. Include a title ,your name & date on the top of the page and print.
