

Mrs. Ruffolo's Class

Thursday April 5, 2007

Dear Parents,

To complement our Art program “Design and Mediums” and our Social Studies program “Ancient Civilizations” our class will be involved in a special project during the week of April 15. Students will have the opportunity to learn about techniques of design and creation using various art mediums such as ceramics and paint.

We have invited All Fired Up (paint ceramics studio) to visit our classroom. Students will have a choice to work with a vase, a plate or a bowl. They will choose their piece in advance and the studio will come in equipped with everything needed to create the masterpieces. The art lesson includes one staff artist, paint, brushes, glazing, and firing. Once finished, the pieces go back to the studio to be glazed and fired. They will be returned to us a few days later. All bowls, plates and vases are food, microwave and dishwasher safe!

The cost for each student to participate in this activity is \$15:00. Please send cash or a cheque (made out to St. Francis of Assisi School) by Friday April 13, 2007.

Thank you in advance for taking an interest in your child’s learning and in helping to make this learning experience a successful one.

Sincerely,

Mrs. Ruffolo
