

Visual Arts – Digital Photography Grade 10 - Open**AWQ20**

This course may be used as an art credit toward the compulsory diploma requirements. This course will develop student's artistic skills by introducing them to photographic technologies and processes. Students learning will include the analysis appreciation and production of photographs using traditional and emergent technologies (computers, digital cameras, and scanner). This course encompasses a studio/lab program that focuses on a balance between creativity and technique.

Prerequisite: None
