

EXPANDED HOURS AT FIRST FLU CLINICS

Oct 29, 2009 8:18 AM

H1N1 Flu Shot Clinics

Link: [Expanded Flu Clinic Schedule](#)

Public clinics for the H1N1 flu shot start Friday, October 30. Clinics will be held in eight locations across Wellington and Dufferin counties and will run until the end of December. These clinics will offer both the H1N1 and seasonal flu vaccines.

The clinics will be open to all local residents. **Although the H1N1 vaccine is recommended for anyone over six months of age, those who would benefit most from early vaccination are encouraged to come first.** These groups include:

- Health care providers
- Children from six months of age to less than five years of age
- Household contacts of children less than six months of age
- Pregnant women in the second half of pregnancy (over 20 weeks gestation) or women with underlying medical conditions at any stage of pregnancy
- People **less than** 65 years of age with chronic medical conditions

Public Health received its first shipment of H1N1 vaccine late last week. Prior to the start of our public clinics, the vaccine will be provided to higher risk populations in hospitals and long-term care facilities. We will also distribute to physicians for their patients.
