Re: STOPR Transportation Opt-Out form (TFL005)

Date: June 4, 2020

As we all prepare to return to school next September, families will be making many choices including how best to transport their children to and from school.

Please note that STOPR has now created a new online transportation "Opt-Out" form (TFL005). While this form has always been available in hard copy format, we are very pleased to announce that it is now available for parents/guardians to complete online. A link to this form and additional information is posted on our website (www.STOPR.ca)

Therefore, if parents/guardians from your school community decide not to make use of the school bus this coming September, you no longer have to send us an email, simply direct the parent/guardian to the STOPR website (www.STOPR.ca) to complete the "Opt-Out" form (TFL005) online.

By completing the "opt-out" form online, STOPR will receive an electronic copy of the data and will be able to remove these students from transportation in our *Bus Planner* system. This will provide us with the most up to date and accurate student ridership data for our September route planning. This information has never been so important especially during these unprecedented times when schools are closed and also over the summer months leading up to September. (STOPR continues to work with the Dufferin-Peel ICT department to ultimately develop an "opt out" feature for schools to use within the Trillium Student Data system and more detail will follow once schools re-open)

Please note that parents/guardians can always elect to change their "opt-out" status at any time by completing the same online form (TFL005) and selecting the "opt-in" option.

We appreciate your assistance in letting parents/guardians know about this new online "opt-out" form by directing them to our website at <http://www.STOPR.ca>

Thank you.
