Grade 9 Assessment of Mathematics, 2018–2019

School: St Martin's Sep S (823953)

Board: Dufferin-Peel Catholic DSB (67083)

On behalf of EQAO, I am pleased to share the results of the 2018–2019 Grade 9 Assessment of Mathematics. You will also find data from previous years along with demographic and attitudinal information as context for interpreting the achievement results.

EQAO's independent data are grounded in our assessment of every student in relation to *Ontario Curriculum* learning expectations and are provided at the school, board, provincial and individual student levels to inform educators' professional practice. We believe that, through evidence-informed decisions based on achievement, attitudinal, contextual and behavioural data, it is possible to foster equitable and inclusive learning models benefiting each student.

Analyzing EQAO data over the years provides a larger context that acknowledges special circumstances affecting student achievement. For example, school boards have been investigating the impact student attendance and loss of instructional time has on student achievement; when looking at the most recent data, you may wish to identify any potential relationship between lost time and student achievement.

In 2018, EQAO made changes to its accommodation policies, including eliminating the requirement for an IEP to access accommodations students normally receive during regular classroom instruction. An important reason for this change was to reduce the workload related to EQAO assessments for teachers, administrators, and parents and guardians while maintaining the integrity and comparability of our data. After considering all of our assessment administration, we noted that 13 000 fewer IEPs were indicated in our Student Data Collection in 2018 than in 2017. The agency hopes to continue implementing meaningful changes in the years to come to address the concerns of the education community.

As always, we look forward to continuing our work with you in support of student learning, and we thank you for your dedication to the meaningful education of each child and youth of this province.

Kind regards,

Norah Marsh
Chief Executive Officer
Education Quality and Accountability Office

Grade 9 Assessment of Mathematics, 2018–2019

TIPS

The applied and academic mathematics courses are different and should be considered separately.

Note: Students in locally developed courses do not participate in these assessments.

Each school or board is unique. To appreciate the distinctive character of a school or board, look at the contextual information to understand the features and characteristics of the community it serves.

This assessment captures the performance of students at one point in time each year. Consider the results along with other information about students' achievement in mathematics.

Exercise caution when interpreting results for small schools or boards. Results may vary considerably from year to year, and differences may look exaggerated. For example, in a school of 30 students, a difference of 10% represents only three students.

Trends may be difficult to identify or to interpret. This is especially true when groups are small or in schools where there is a high turnover in the student population.

EQAO values students' privacy. Results are not reported publicly for schools or boards where fewer than 10 students participated because it might be possible to identify individual students.

ABOUT THIS SCHOOL OR BOARD REPORT

This report shows how well students have met curriculum expectations for either the applied or academic mathematics program to the end of Grade 9. Students complete two booklets that allow them to show what they know in mathematics. The assessment is based on *The Ontario Curriculum: Mathematics, Grades 9 and 10*.

This report includes

- results for this year;
- a comparison of results of the current and previous administrations to aid in monitoring improvement; and
- information about the characteristics of the students who participated.

Specifically, you will find

- summary graphs showing the percentage of students achieving the provincial standard in either applied or academic mathematics;
- detailed tables and graphs showing results for all levels of achievement, participation information and results by gender;
- student questionnaire results; and
- an explanation of all terms used in this report.

HOW TO USE THIS REPORT

- Examine the contextual information to understand the similarities and differences between this school, the board and the province; the board and the province. Consider the challenges that any differences might present.
- Examine the results for applied and academic mathematics.
 - Are these results consistent with what you would expect?
 - How do the school results compare to the board and province; the board results compare to the province?
 - How do these results compare over time?
 - What influence might students' attitudes have on student performance (refer to the questionnaire results)?
- Speak to the school or board staff about the goals for school improvement related to mathematics.

The Education Quality and Accountability Office is an independent agency that gathers information about student achievement through province-wide assessments. Each year, all Grade 9 students in applied and academic mathematics take part in this assessment across Ontario. Individual results are reported to students and to parents and guardians. School, board and provincial results are released publicly.

STUDENTS' ATTITUDES TOWARD MATHEMATICS									
Percentage of students indicating they "agree" or "strongly agree" with the following statements:†									
I like mathematics.	58%	52%	62%	59%	53%	64%	57%	52%	63%
I am good at mathematics.	46%	38%	53%	54%	48%	61%	54%	48%	60%
I am able to answer difficult mathematics questions.	40%	33%	46%	49%	41%	58%	49%	41%	58%
Mathematics is one of my favourite subjects.	42%	37%	45%	44%	39%	49%	41%	36%	47%
I understand most of the mathematics I am taught.	70%	64%	75%	76%	74%	78%	75%	72%	77%
Mathematics is an easy subject.	16%	15%	16%	30%	25%	34%	29%	24%	35%
I do my best in mathematics class.	70%	73%	69%	72%	75%	70%	73%	77%	69%
The mathematics I learn now is useful for everyday life.	33%	30%	35%	29%	27%	32%	28%	26%	31%
The mathematics I learn now helps me do work in other subjects.	57%	49%	62%	57%	56%	58%	56%	54%	57%
I need to do well in mathematics to study what I want later.	67%	64%	69%	63%	62%	65%	63%	61%	65%
I need to keep taking mathematics for the kind of job I want after I leave school.	57%	60%	55%	57%	54%	59%	57%	55%	59%
Percentage of students indicating they feel "confident" or "very confident" that they can answer mathematics questions related to the following:‡									
number sense (e.g., operations with integers, rational numbers, exponents)	73%	64%	80%	69%	63%	75%	68%	61%	75%
algebra (e.g., solving equations, simplifying expressions with polynomials)	61%	56%	66%	71%	69%	73%	70%	68%	72%
linear relations (e.g., scatter plots, lines of best fit)	60%	49%	68%	61%	55%	68%	61%	55%	67%
analytic geometry (e.g., slope, y-intercept, equations of lines)	58%	48%	67%	64%	60%	67%	62%	58%	66%
measurement (e.g., perimeter, area, volume)	67%	59%	74%	79%	75%	83%	77%	73%	82%
geometry (e.g., angles, parallel lines)	67%	60%	72%	72%	67%	76%	70%	66%	75%

* Includes only students for whom gender data were available.

† Other response options were "strongly disagree", "disagree" and "neither agree nor disagree".

‡ Other response options were "not at all confident" and "somewhat confident".

DOING MATHEMATICS									
Percentage of students indicating they do the following “very often” when studying mathematics or working on a mathematics problem:†									
I connect new mathematics concepts to what I already know about mathematics or other subjects.	11%	16%	8%	12%	12%	12%	12%	12%	12%
I check my mathematics answers to see if they make sense.	38%	42%	34%	37%	40%	34%	32%	35%	29%
I apply new mathematics concepts to real-life problems.	5%	0%	9%	5%	4%	7%	5%	4%	6%
I take time to discuss my mathematics assignments with my classmates.	14%	14%	14%	14%	16%	12%	12%	13%	11%
I look for more than one way to solve mathematics problems.	12%	7%	16%	15%	14%	16%	13%	12%	14%
Percentage of students indicating they complete their mathematics homework at the following frequencies:‡									
I am not usually assigned any mathematics homework	1%	0%	2%	1%	<1%	1%	2%	2%	2%
Never or almost never	4%	4%	4%	5%	3%	7%	6%	3%	8%

‡ Numbers and percentages are based on the number of students who indicated that their teacher will count some or all parts of the assessment as part of their class mark.

Grade 9 Assessment of Mathematics, 2018–2019

EXPLANATION OF TERMS	
All Students	Results are reported for all students in the course.
Participating Students	Results are reported only for those students who took part in the assessment (excludes the “no data” category).
Provincial Standard	The Ministry of Education, in <i>The Ontario Curriculum, Grades 9 and 10: Mathematics</i> , has set Level 3 as the provincial standard.
Level 4 (80–100%)	The student has demonstrated a very high to outstanding level of achievement. Achievement is <i>above</i> the provincial standard.
Level 3 (70–79%)	The student has demonstrated a high level of achievement. Achievement is <i>at</i> the provincial standard.
Level 2 (60–69%)	The student has demonstrated some of the required knowledge and skills. Achievement is <i>below, but approaching</i> , the provincial standard.
Level 1 (50–59%)	The student has demonstrated a passable level of achievement. Achievement is <i>below</i> the provincial standard.
Below Level 1/ Below L1	The student has not demonstrated sufficient achievement of curriculum expectations (below 50%).
No Data	Students who did not have a result due to absence or other reasons.
English Language Learners	Students who have been identified by the school in accordance with <i>English Language Learners: ESL and ELD Programs and Services: Policies and Procedures for Ontario Elementary and Secondary Schools, Kindergarten to Grade 12</i> (2007).
Students Receiving Special Provisions	Students identified by the school as receiving special provisions. Detailed information about special provisions is available in EQAO's <i>Administration and Accommodation Guide</i> .
Students with Special Education Needs (excluding gifted)	Students who have been formally identified by an Identification, Placement and Review Committee, as well as students who have an Individual Education Plan. Students whose sole identified exceptionality is giftedness are not included.
Students Receiving One or More Accommodations	Students identified by the school as receiving accommodations. Detailed information about special accommodations is available in EQAO's <i>Administration and Accommodation Guide</i> .
N/R	“Not reported” indicates that the number of students participating (fewer than 10 in a group) or responding to the Student Questionnaire (fewer than six in a group) is so small that identification of individual student results might be possible; therefore, results are not reported.
N/D	“No data available” is used to indicate that there were no students in the course for the years specified.
W	Results are being withheld by EQAO. For further information, please contact the school principal.
EC	Due to exceptional circumstances in 2015, provincial data are unavailable to report provincial results.
NP	Non-participating indicates that due to exceptional circumstances, some or all of the school's or board's students did not participate.
